### PROFESSIONAL SUMMARY

Results-driven Front-End Engineer with a proven track record of delivering creative, high-impact technical solutions and strategic web architectures. Deeply sophisticated in cutting-edge frontend technologies, modern JavaScript frameworks, and user-centric design principles. Adept at leading cross-functional projects, designing scalable components, and optimizing performance within fast-paced, rapidly evolving environments. Passionate about bridging the gap between robust engineering and intuitive UI/UX design to elevate customer engagement and digital experiences.

### TECHNICAL SKILLS

**Languages & Frameworks:** JavaScript (ES6+), TypeScript, React, HTML5, CSS3, LESS/SASS, Bootstrap, Node.js, Python, jQuery

**UI & Styling Libraries:** Material UI, Tailwind CSS

**Design & UI/UX:** Figma, Adobe XD, Photoshop, Illustrator, InDesign, Wireframing, Graphic Design, User Experience (UX) Design

**Methodologies:** Responsive Web Design, Component-Driven Development, Accessibility (WCAG), Digital Marketing, Cross-Functional Collaboration

### PROFESSIONAL EXPERIENCE

#### Bartender – *Two Stones Pub*

2026 – Present

- **Agile Problem Solving & Efficiency:** Excel in a high-volume, fast-paced environment, managing competing priorities under tight time constraints while maintaining a strict standard of quality and customer satisfaction.
- **User-Centric Communication:** Act as the primary interface for diverse clientele, translating complex menu, ingredient, or customer preferences into tailored individual experiences, directly mirroring client-facing requirements gathering in software development.
- **Workflow Optimization:** Collaborated with team members to streamline inventory and service workflows, boosting operational efficiency and team productivity during peak business hours.

#### Web Development Engineer II – *Amazon*

2021 – 2024

- **Technical Leadership:** Served as the technical lead driving high-impact customer engagement, digital signups, and advanced personalization solutions for Amazon Prime worldwide locales.
- **Scalable Architecture:** Streamlined codebases by developing highly reusable, modular frontend components, drastically increasing system scalability and usability for cross-functional development groups.
- **Accessibility Champion:** Spearheaded the comprehensive identification, debugging, and resolution of digital accessibility issues across core Prime locations, ensuring strict adherence to inclusive design standards.
- **Data-Driven Impact:** Led a strategic Prime Video initiative for customized user recommendations, successfully driving thousands of increased global Prime signups.

#### Digital Marketing Coordinator – *D&H Distributing Company*

2018 – 2021

- **UI/UX Strategy:** Conceptualized and executed sophisticated UI/UX designs by meticulously aligning complex business requirements with user-centered design methodologies and modern technology limitations.
- **Product Optimization:** Directly contributed to a massive 129% Year-over-Year (Y/Y) improvement in vendor partner mobile sales through intentional, high-performance responsive web and mobile layouts.
- **Project Delivery:** Managed, executed, and deployed robust web, email, and graphic design projects on time within strict, high-pressure corporate timelines while maintaining absolute brand consistency.

### EDUCATION & CERTIFICATIONS

#### Southern New Hampshire University

*Bachelor of Science in Information Technology* / GPA: 3.98  
*Concentration in Web Design & Development (Graduated 2021)*

#### California Institute of the Arts (Coursera)

- Professional Certificate: Foundations of User Experience (UX) Design
- Professional Certificate: Fundamentals of Graphic Design
- Professional Certificate: Introduction to Typography
